Dear Brother / Sisters

We United Trust are happy to introduce our new charity and humanity project known as United House Hyderabad India.

Our main aim & objective is to implement the correct things through in light of Humanity, especially to our society in Hyderabad.... as every human is being of "God's Spirit". Every day we are distancing ourselves with each other out of ignorance, miss guidance leading to present practice of Religion and social welfare involving in un-fair things that is called Superstition distancing themselves away from true original divine path, so in this regards we are going to build a new Divine Empire in Hyderabad with following facilities for the welfare of humanity. It is our endeavor and sincere effort to instill true spirit, preaching of God enabling all of us to move on his path to attain glory, peace and prosperity.

Spirituality refers to the evolutionary process as it drives us forward, eventually, to perfect wholeness and is a journey from human consciousness to God's consciousness eventually merging and become one with him to attain eternal and permanent peace.. The almighty who created this universe had within him the power to create, if all of us are being of the supreme God then we too have it within us to create. It is just that we have forgotten our true self and wandering in the quest without answers. However, the one who realize the ultimate truth that he is none other than the being of supreme God through prayers, serving humanity, good deeds realizes this ultimate truth and attains permanent peace in this life time. We here want every brother and sister to realize this truth and come and be in Gods consciousness, help self and others to attain permanent, peace and prosperity and eventually merge with Supreme God after leaving this body.

Our foundation wish to work to bring all our brothers and sisters to come, collectively pray, raise their consciousness from human to God and experience their true self. The journey will help live a disease free, peaceful, prosperous life helping self and others. Come, let us first realize our own true self before we preach the world, let us first travel within and discover ourselves through intensive prayers, extensive service to humanity and eventually raise our consciousness. Such group of evolved and people of awakened consciousness collectively prayers can do miracles anywhere in the world and can heal even war torn countries and alter situations for good.

We at Qafila Foundation, would hold your hand, guide you to travel within, experience this beautiful journey of being human to God to attain permanent peace & prosperity and eventually become one with Supreme at the end of the journey.
